

Filtration and microfiltration products for applications in environmental analysis

Waste management, Industrial waste
treatment, analysis laboratory

| PROCESS | TECHNIQUE | FILTER TYPE | REF. CHM |
|--|------------------------------|--|----------------------------|
| Characterization of hazardous substances | Filtration | Acetate/Nitrate Cellulose membrane of 0,20um | MCA020... MNC020... |
| | Filtration (Funnel/E.Bucher) | Qualitative filter paper | F1091- F1093- F1113- |
| Characterization of toxic substances | Filtration at Pressure | Glass Microfiber Filter | GF3- |
| Soil Analysis | Leachates determination | Acetate/Nitrate Cellulose membrane of 0,45um | MCA045... MNC045... |
